michal.birkenfeld@mail.huji.ac.il

Application form and registration fee must be received by April 1, 2011

It is compulsory for excavation participants to have Tetanus vaccinations prior to arrival. It is also recommended for all participants to undergo a full health examination. All volunteers must carry proof of a valid health/accident insurance policy during their stay at the excavation and in Israel.

I certify that my state of health permits me to participate in strenuous physical activity in bright sunlight and heat (as is normal in archaeological excavations).
